Analytica
Management Solutions

Who We Are

Analytica is a management consultancy in the construction industry supporting companies at both corporate and project levels as a center of excellence (CoX) and Digital Transformation besides providing PMO as a service.

Business Enablers

Vision

Become the premier provider of innovative Management Consultancy Solutions.

Mission

Through a unique offering of innovative integrated management solutions that help clients improve efficiency and achieve sustainable profitability

Values

- Innovation & Simplicity
- Agility & adaptation
- Unique & reliable solutions
- Customer centricity
- Teamwork excellence

Strengths

Spinning off a major region-based contractor that offers unique, award-winning, and tested services

Uniqueness

Analytica caters to a unique offering of Management Consultancy along with PMO as a service spiraling out of mixing a contractor's experience and common Controls services.

Opportunities

Analytica shall add new dimensions to management solutions by offering agile, smart & innovative services catering to client needs

Market Relevance

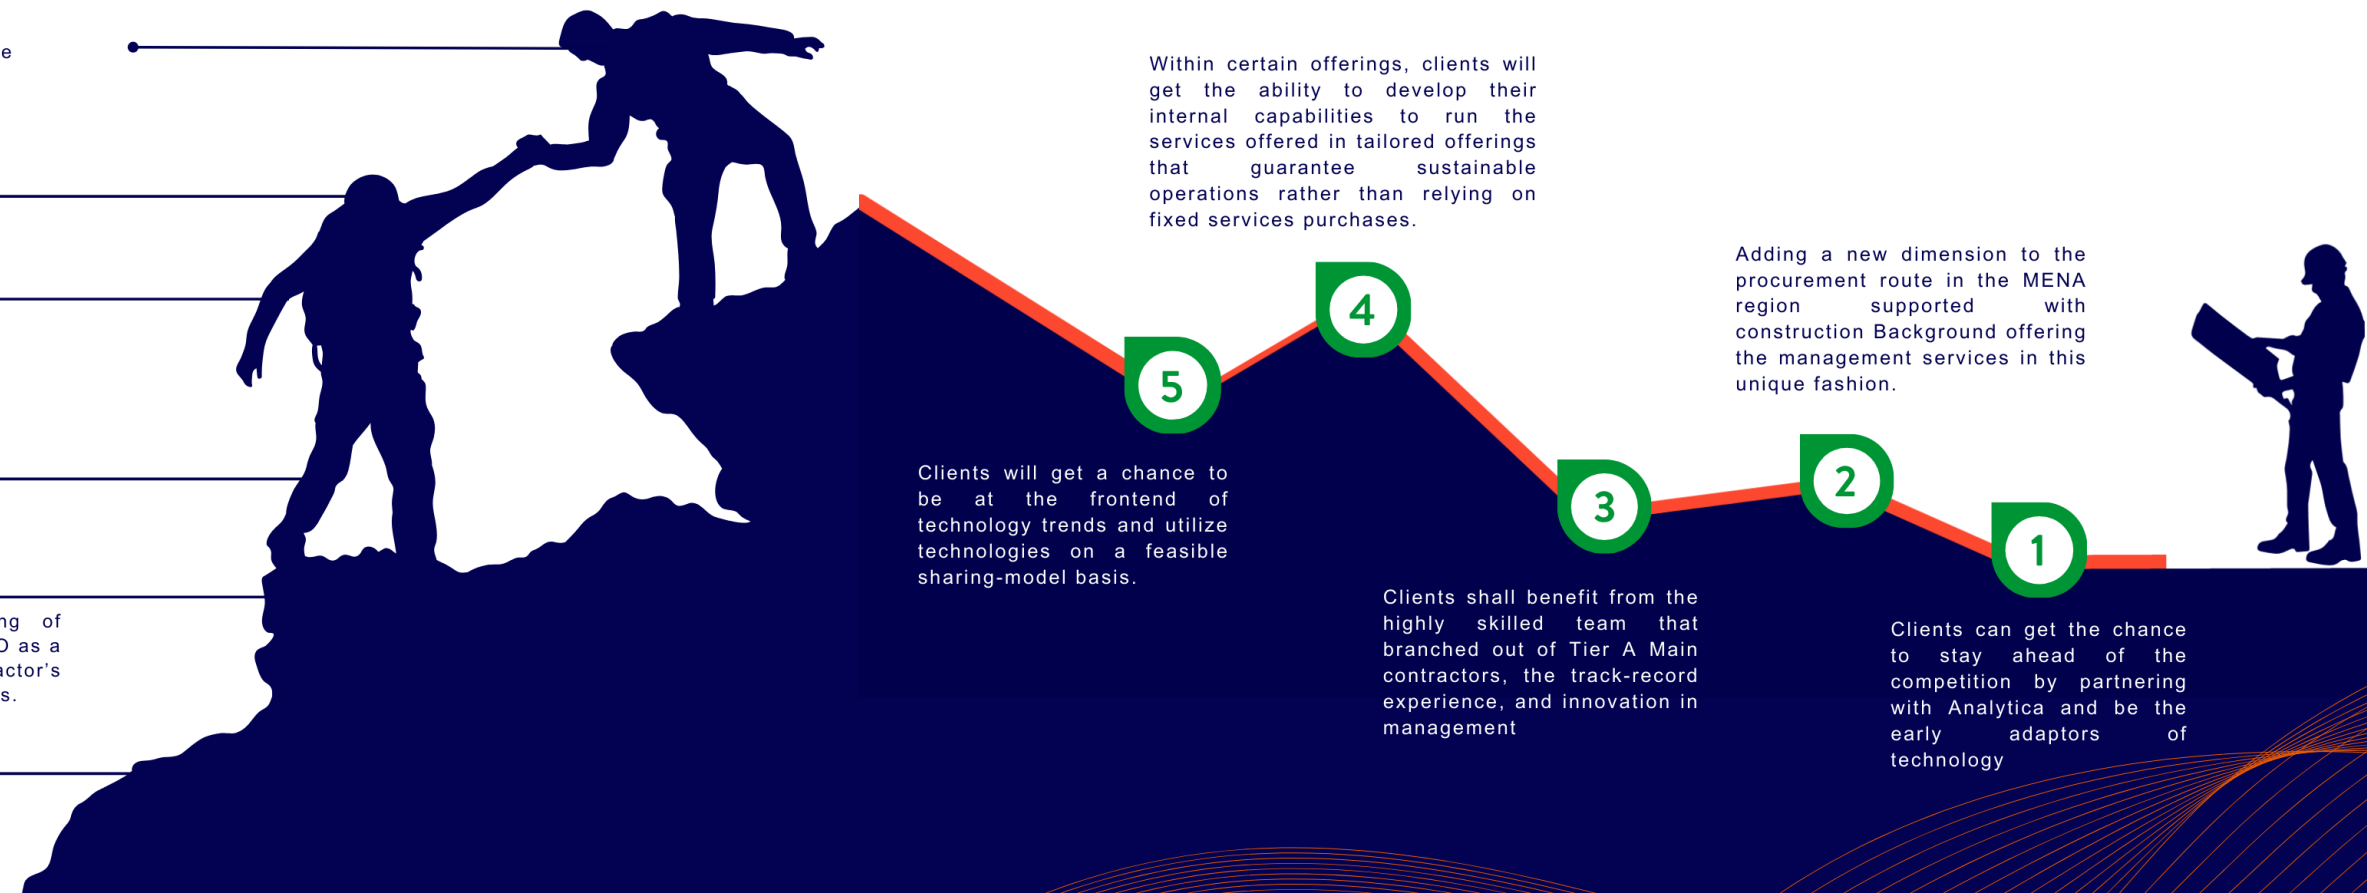

Within certain offerings, clients will get the ability to develop their internal capabilities to run the services offered in tailored offerings that guarantee sustainable operations rather than relying on fixed services purchases.

Adding a new dimension to the procurement route in the MENA region supported with construction Background offering the management services in this unique fashion.

Clients will get a chance to be at the frontend of technology trends and utilize technologies on a feasible sharing-model basis.

Clients shall benefit from the highly skilled team that branched out of Tier A Main contractors, the track-record experience, and innovation in management

Clients can get the chance to stay ahead of the competition by partnering with Analytica and be the early adaptors of technology

Services

Managing Mega-projects is our game. We demonstrated by the track record set by main contractors in recent years.

Moreover, Analytica offers a mix of Products & services revolving around project management that includes project control services ranging between contract management, claims management, planning, risk management, and cost control. Analytica also excels in the execution of Building Information Modelling from 3D to 7D, full VDC services, and the integration of Business intelligence solutions, smart reporting tools, and reality capture technologies.

Management Consultancy

Offers clients premium consultancy service and strategic auditing where we analyze business acumen and propose suitable solutions and service providers to improve efficiency and optimize costs.

Center of Excellence (CoX)

Service has three dimensions of Technology, Procedures, and people, working with corporate teams to standardize systems, procedures, and reporting in different aspects to enhance corporate capabilities, and readiness for continuous improvement.

PMO as a Service

Services allocated to project delivery ranging from small-scale to complex mega projects. Includes Project controls, VDC, Cost Management, Risk, Planning, Design Management, Claims, Value Engineering, Business intelligence, and contracts admiration.

Management Contractor

A procurement route can be suitable for mega-developments in which the works are to be constructed by different work package specialists who are hired by an experienced management contractor.
